Future Design Possibilities Immersion:

Building future readiness by imagining exponential possibilities

This immersion fundamentally challenges traditional thinking & beliefs and expands the possibility horizon.
Highly engaging & interactive – take-away visual tools and a deep appreciation for the impact of future change.

Immerse yourself into your future, where exponential technologies impact our way of work and being in the world.

Explore powerful tools inspired by Singularity University customized for your unique context.

Join us for a 1-day journey of discovery into the future of Singularity – where you get a glimpse of who you could become and what skills, mindset shifts and activities need to be planned for now to get there.

PRESENT

2030

2030 FRAMEWORKS
Decide how the 2030 world will look – Social, Technical, Political, Environmental, Economical

2030 PERSONAS
Get to know other people in your 2030 world - Age, Occupation, Lifestyle Pursuits, Opportunities

2030 REIMAGINED SELF
Who will you be in this future world - Age, Career, Living Circumstances

2030 WORLD BUILDING
Summarise the steep variables you imagine for 2030

KEY CONCEPTS
Consolidate the first 4 steps into opportunities for the future

2030 RETROCAST
Work backward from 2030 to today. What activities do you need to set for yourself to get to where you want to be in 2030

Catalyst Consulting and AFP Advisory collaborate to bring you this immersive experience
